Call for abstracts

The deadline for abstract submission is: March 19, 2021
Presenting authors must be registered to submit their abstracts.
Registration to ISRH 2021 and abstract submission are free of charge.

**Guidelines for abstract submission:**

- All submitted abstracts will be reviewed by a Scientific Committee to decide if they are of a high enough quality to be included in the scientific program.
- We encourage trainees and early career researchers to submit an abstract for presentation. Results from works published during 2020-2021 are also accepted for its communication at the symposium. When submitting your abstract, please indicate whether the results are already published or not.
- When submitting your abstract, please indicate whether you wish to be considered for oral presentation and the session that best suits your work. Oral presentations will last 10 minutes and will be part of one of the symposium sessions.
- The first author must be the presenting author.
- Each person is allowed to submit a maximum of one abstract as a first/presenting author. There is no limit to the number of abstracts submitted as a co-author.
- The presenting authors will be notified whether their abstract is accepted for oral or poster presentation by April 16th, 2021.
- When submitting your abstract, please indicate if you would like it to be considered for the poster and oral awards. Only those abstracts whose first and presenting author is an Early Career Researcher (ECR) or trainee will be considered for awards.
  - **Early Career Researcher:** postdoctoral fellows and anyone within the first 5 years of completing a PhD.
  - **Trainees:** undergraduate students, graduate students and clinical fellows currently enrolled in an academic institute or a formally approved training program leading to a degree by the time of registration.
- Abstracts must be submitted through the web platform. Those sent by email will not be taken into consideration.
Authors selected for poster presentation should submit a video of no more than 5 minutes, and the poster as a PDF by May 21, 2021. The presenting author should appear in the video recording (this could be done by Powerpoint or by recording your presentation on Google-meet or Zoom, among other options).

**How to write my abstract?**

- Abstracts should contain a title, authors and their affiliation.
- Underline the name of the person who will be presenting the poster/oral at the symposium and provide the e-mail address.
- The abstract must contain the following information: Brief introduction – Objective – Methods – Main Outcomes and Result(s) – Conclusions.
- Three to five keywords should be detailed.
- The abstract cannot be longer than 300 words (without title, authors, affiliation and keywords). It is not possible to include tables and images, nor insert data in the text of the abstract.
- Each person is allowed to submit a maximum of one abstract as a presenting author. There is no limit to the number of abstracts submitted as a co-author.

Oral and poster sessions:

- Maternal-fetal interface
- ARTs effects on embryo and offspring development.
- Paternal effects on fertility and offspring health.
- Maternal effects on pregnancy and offspring health.

Extra poster session: preliminary results will be accepted.

- COVID-19, pathogens and reproductive health.
